FACTS

The PowerSurvivor 40E is compact and energy efficient, drawing only 4 amps to desalinate water for your yacht. Its simple construction and rugged design make the 40E easy to operate, and maintain. With its space-saving design, it can be fit in the smallest compartments. In the event of a power shortage, the 40E is only system on the market that can convert to a hand operated system.

FEATURES

- Simple, lightest, and most compact machine
- Runs on 4 Amps at 12 Volts DC, making 1.5 gallons (6 liters) per hour
- Rugged and reliable 316 stainless steel pump
- Easily rebuilt in the field
- Lowest amperage draw of any electric watermaker
- So small it can be fit on any vessel, even transoceanic rowboats.
- Converts to hand operation in case of power shortage
